

Protect Your Investment

Invest in these home maintenance and safety Tips. They will pay off in peace of mind, utility cost and savings and durability.

- **Inspect It**
 - Invest in a home inspection if needed. Choose a reputable inspector who is appropriately licensed and insured
- **Maintain It**
 - Recognize that regular proactive maintenance adds years to the life of your home. Use licensed, bonded and insured contractors for maintenance or repair work on your home. Obtain references from sources you trust.
- **Record It**
 - Keep good records of maintenance, repair work and warranties by manufacturer and contractors.
- **Last But Not Least – “While you’re Away”**
 - Invest in “Mountain Home Services” to look after your home until you return. Give yourself peace of mind knowing that your home is being cared for “while you’re away”.
